

# BD Showcases Latest Drug Delivery Innovations at CPhI Milan 2024

**FRANKLIN LAKES, N.J. (October 3, 2024)** – BD (Becton, Dickinson and Company), a global leader in medical technology, will highlight its newest innovations in drug delivery systems at **CPhI Milan 2024** on October 8<sup>th</sup> and 9<sup>th</sup> in Milan, Italy. The event is a premier global platform for pharmaceutical professionals, focusing on innovations in drug delivery and packaging systems. This year's showcase at **booth #20A65** will emphasize BD's continued commitment to advancing healthcare through cutting-edge drug delivery solutions and feature an array of innovative products designed to meet the growing demands of pharmaceutical and biotech industries across a range of therapeutic areas.

Featured products include:

- **BD iDFill™ Individual Prefillable Syringe Identification**°: A Radio Frequency Identification (RFID) based solution for prefillable syringes (PFS) which aims to enhance efficiency and improve traceability during fill-and-finish operations. **BD iDFill™ is also a finalist for the 2024 CPhI Manufacturing Excellence Award.**
- **BD Neopak™ XtraFlow™ Glass Prefillable Syringe**: Designed for subcutaneous delivery of high-viscosity biologics with a shorter 8mm needle length and thinner wall technology. BD's product demonstration booth will offer attendees an interactive experience, showcasing how BD Neopak™ XtraFlow™ Glass Prefillable Syringe is allowing drug developers to *Flow Beyond Limits*.
- **BD SCF™ PremiumCoat® 1-3mL Plunger Stopper**: Engineered to support the subcutaneous injection of complex biologics and viscous solutions through reduced\* glide force and glide force variability<sup>1</sup>, and guarantee of no ribs not touching to support container closure integrity<sup>2</sup>.

"At BD, our mission is to support the global health community with drug delivery solutions that are as innovative as they are reliable," said Fernand Goldblat, VP/GM BD Medical-Pharmaceutical Systems, PFS platform. "Our presence at CPhI Milan reaffirms our commitment to collaboration and partnership with biopharmaceutical companies to bring next-generation solutions to market."

BD will have other products on display, including **BD Effivax™ Glass Prefillable Syringe** for vaccines, **BD Libertas™ Wearable Injector\*\*** and **BD Evolve™ On-body Injector\*\*\*** wearable solutions, as well as BD Physioject™ Disposable Autoinjector and BD Vystra™ Disposable Pen for biologics. These products and innovative solutions exemplify BD's leadership in offering a broad range of injection solutions to enable delivery of vaccines, treatments such as GLP-1s and other next generation treatments for chronic disease.

## About BD

BD is one of the largest global medical technology companies in the world and is advancing the world of health by improving medical discovery, diagnostics and the delivery of care. The company supports the heroes on the frontlines of health care by developing innovative technology, services and solutions that help advance both clinical therapy for patients and clinical process for health care providers. BD and its more than 70,000 employees have a passion and commitment to help enhance the safety and efficiency of clinicians' care delivery process, enable laboratory scientists to accurately detect disease and advance researchers' capabilities to develop the next generation of diagnostics and therapeutics. BD has a presence in virtually every country and partners with organizations around the world to address some of the most challenging global health issues. By working in close collaboration with customers, BD can help enhance outcomes, lower costs, increase efficiencies, improve safety and expand access to health care.
