

BD Medication Management Technology Ranked Best in KLAS for Sixth Consecutive Year

BD honored with category leadership for automated dispensing cabinets and traditional smart pumps

SAN DIEGO, Feb. 7, 2025 / -- BD (Becton, Dickinson and Company) (NYSE: BDX), a leading global medical technology company, today announced that for the sixth consecutive year, medication management technology from BD has been named Best in KLAS. The BD Pyxis™ MedStation ES was honored with the 2025 Best in KLAS award for Automated Dispensing Cabinets and the BD Alaris™ Infusion System was honored in the Smart Pumps – Traditional category. This recognition underscores BD's market leadership and dedication to safety and innovation across the entire medication use process.

Presented by KLAS Research, the Best in KLAS awards recognize software and services companies that excel in supporting patient care. These annual rankings are based entirely on feedback from in-depth interviews conducted with thousands of health care professionals.

BD's innovative medication management offerings consistently set industry benchmarks, and recognition in multiple categories of the Best in KLAS Awards reaffirms that BD is the clear category leader for some of the most relied-upon tools and technologies in healthcare. Last year, more than 1.2 million infusions were delivered every day via the BD Alaris™ Infusion System to some of the most critically ill patients. And each day, there are more than 9.8 million transactions on BD Pyxis™ devices.

"At BD, our medication management technology represents the backbone of hospital operations and our solutions empower clinicians to focus more on providing hands-on clinical care and less on time-consuming manual processes," said Connor Bates, worldwide president for Medication Management Solutions at BD. "This recognition from KLAS for two of our flagship products is a powerful validation of the work we do to continuously innovate and the push the boundaries of making medication management safer, simpler and smarter."
